ELEMENTY

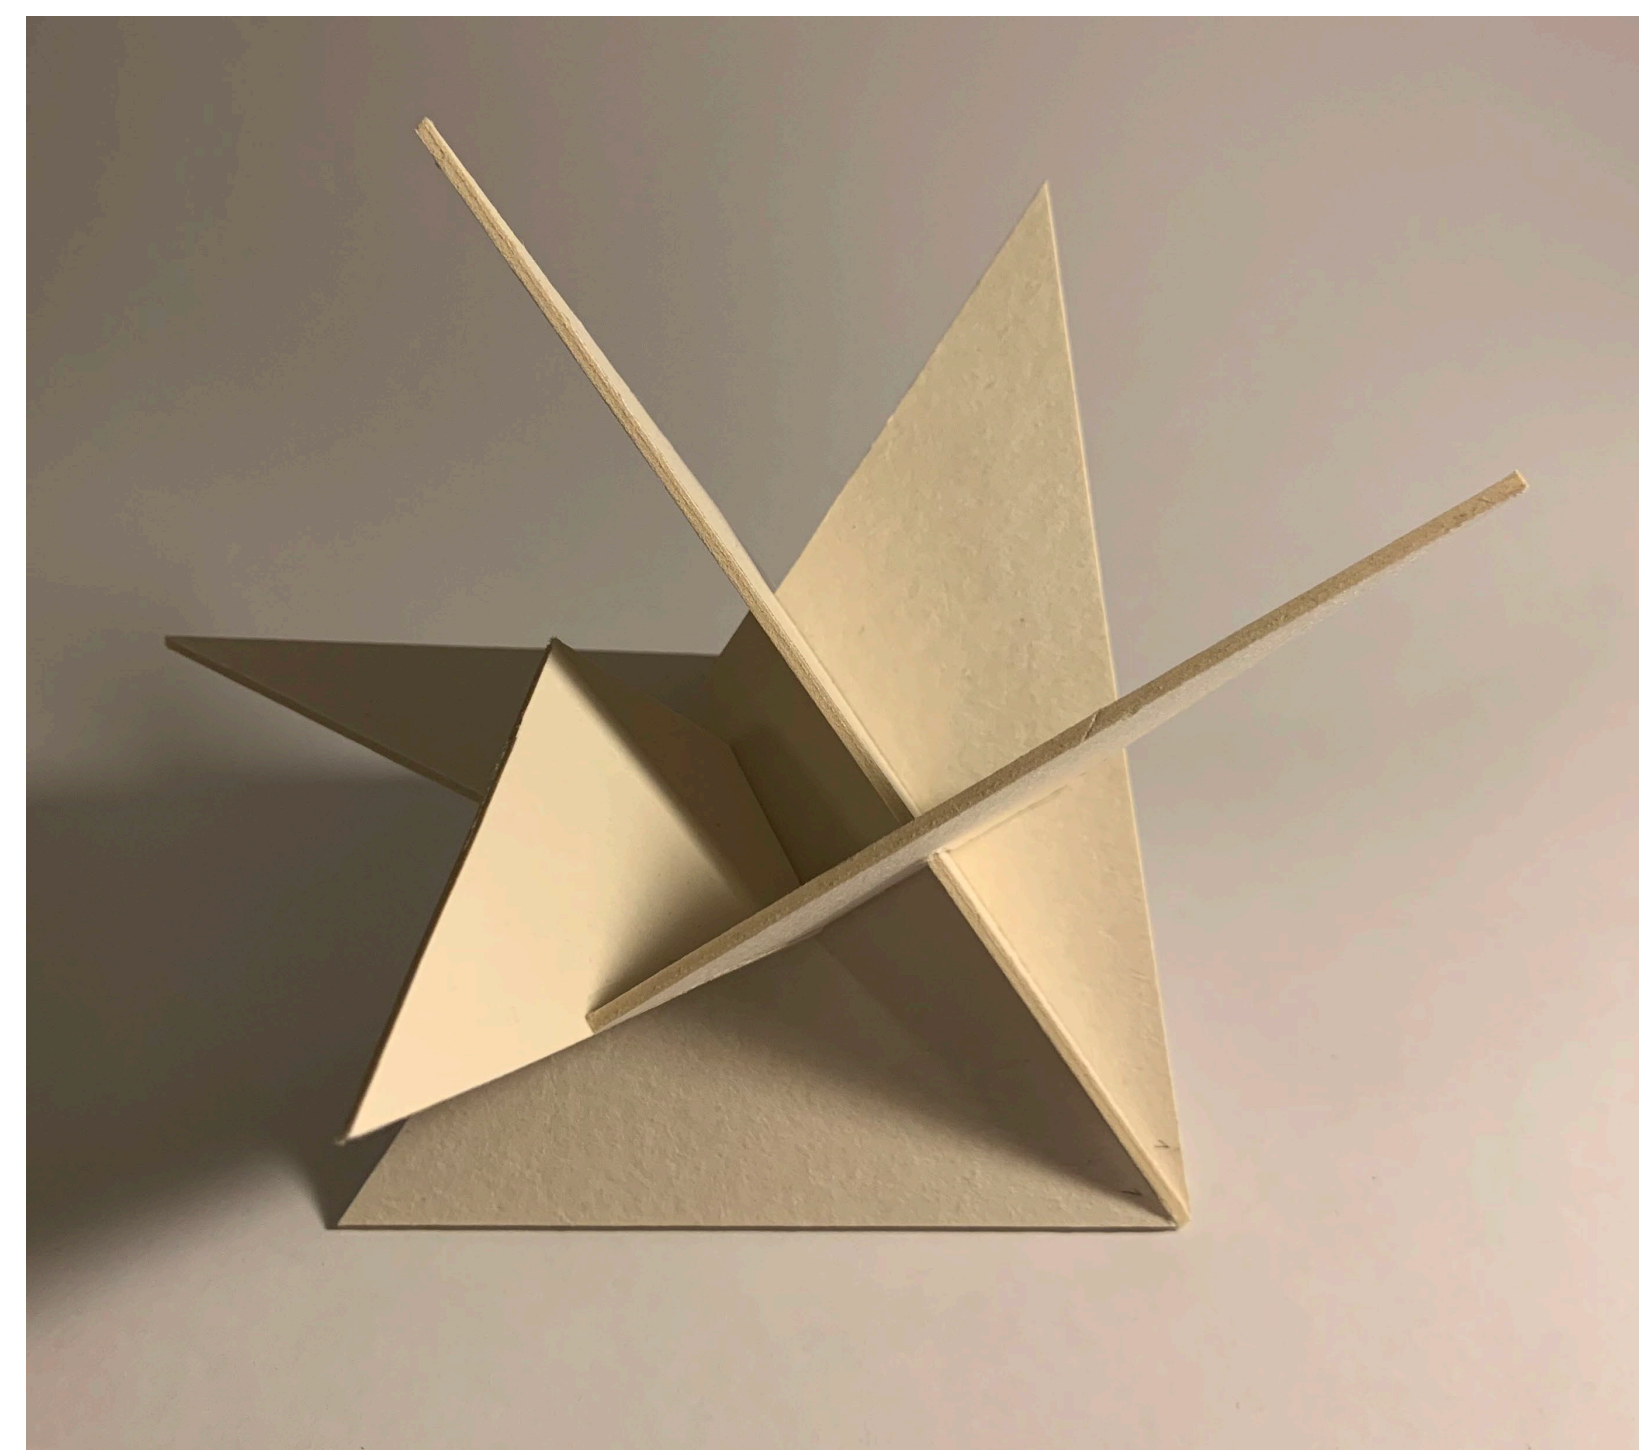

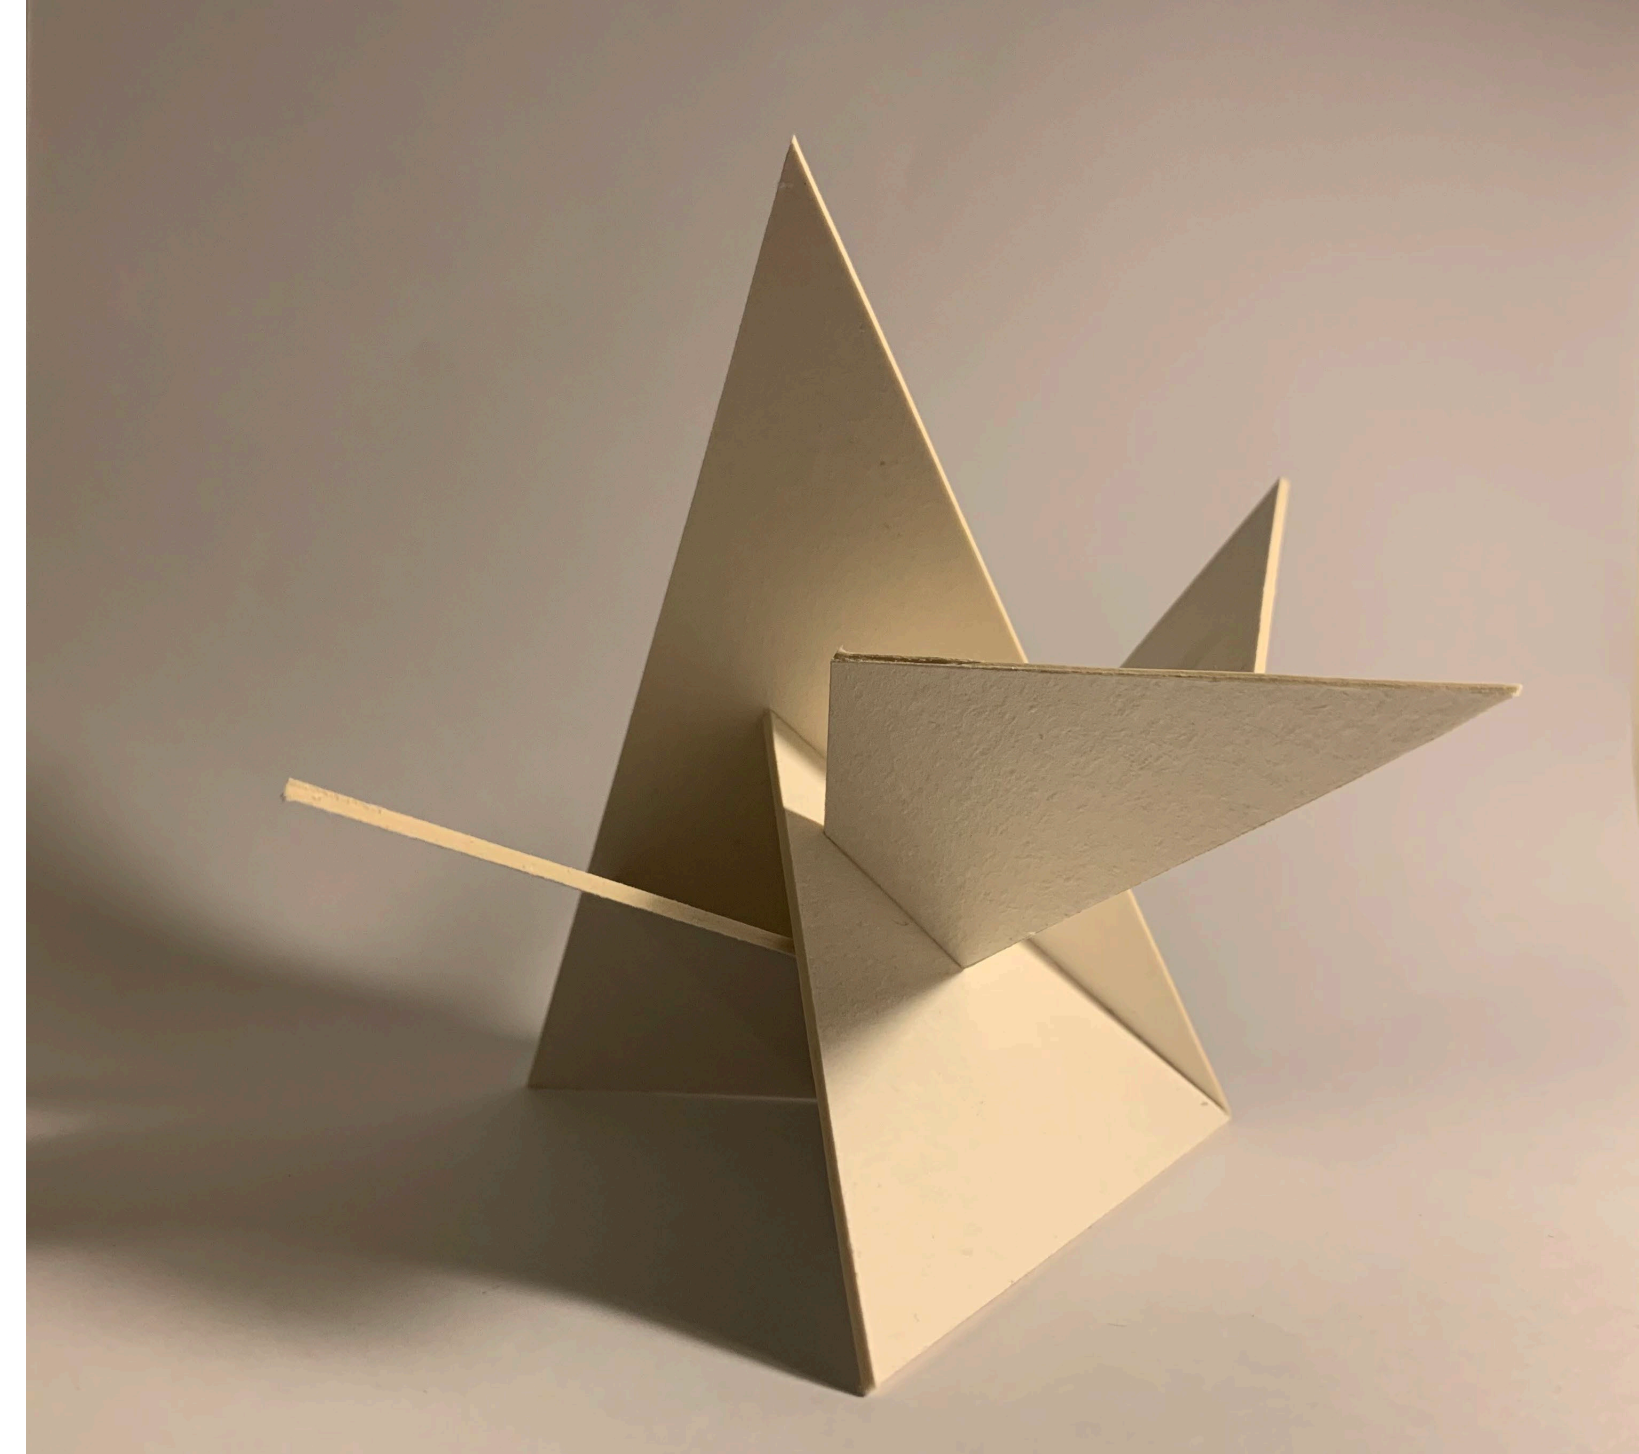

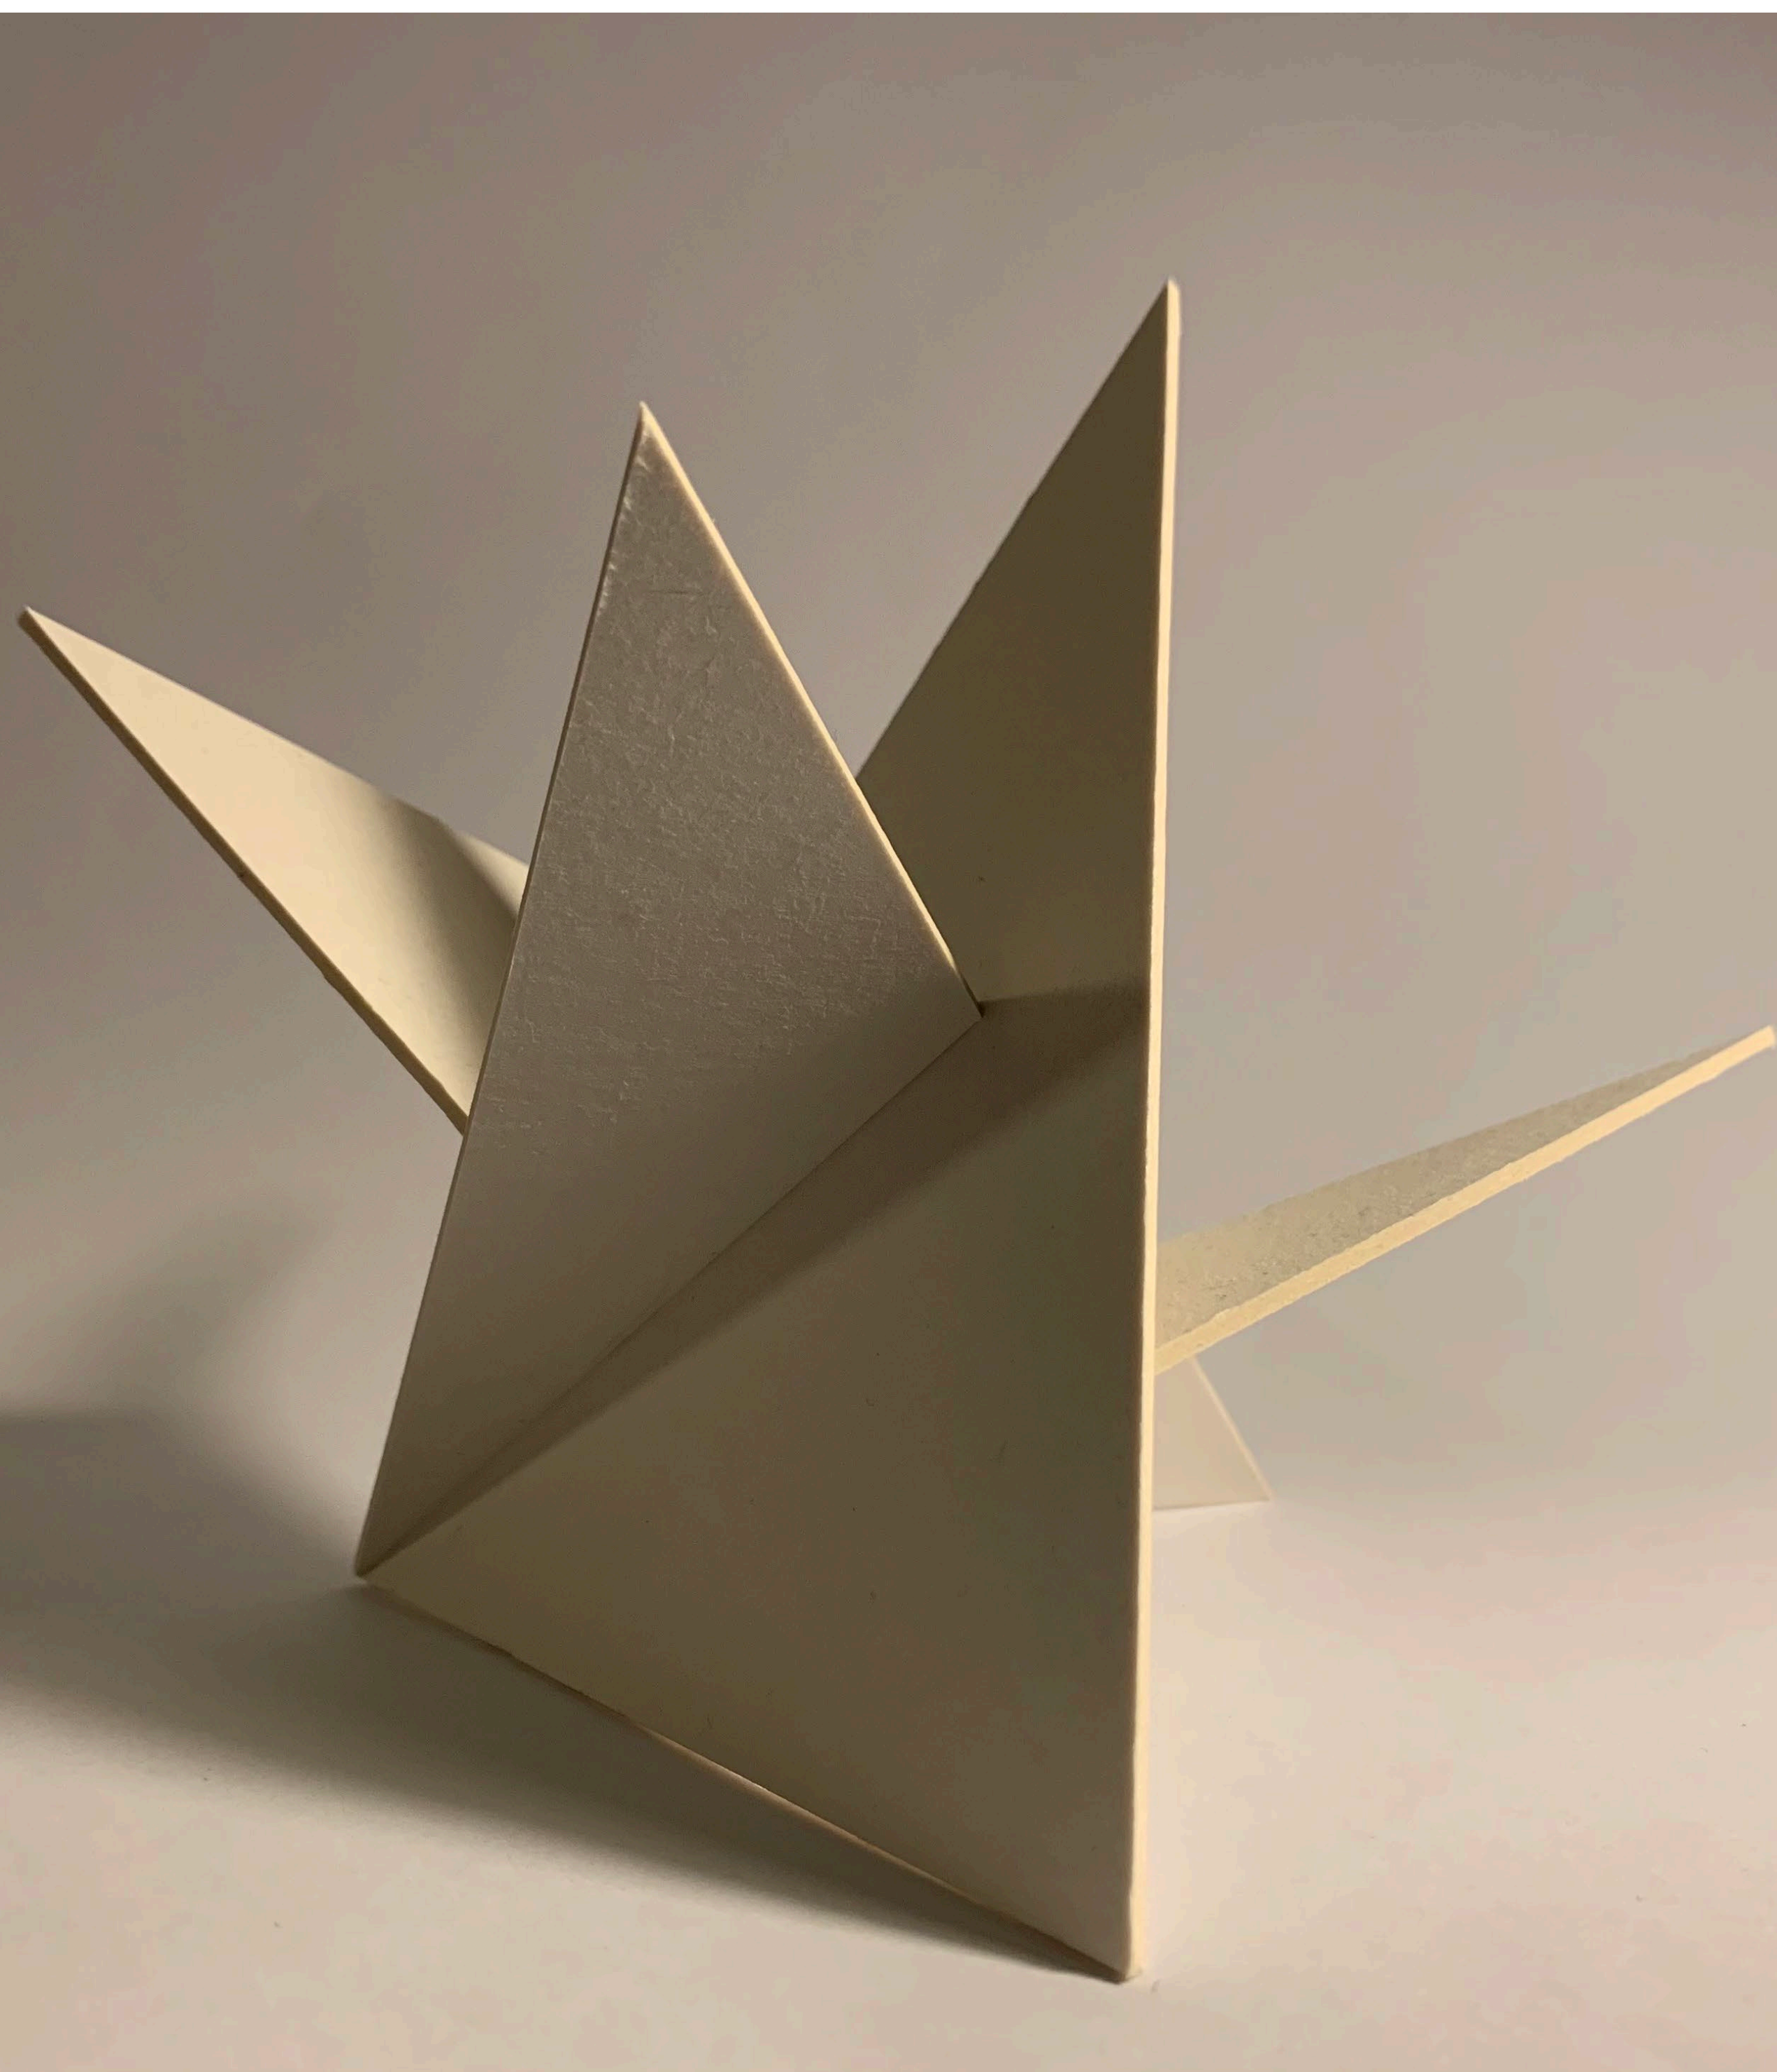

An abstract sculpture constructed from multiple layers of light-colored cardboard. The structure is composed of several sharp, triangular and quadrilateral planes that intersect at various angles, creating a complex, three-dimensional geometric form. The planes are layered, giving the sculpture a sense of depth and volume. The background is a neutral, light gray, and the lighting is soft, highlighting the edges and surfaces of the cardboard. A large, semi-transparent white circle is positioned on the right side of the image, partially overlapping the sculpture and the text.
